MJP30AXF

Water based pigment inkjet press for flexible packaging

Water based ink, Safe for Food Packaging

- Inline primer coating, corona and newly designed dryer allow water based inks onto the film substrate such as PP, PET and Nylon.
- Very wide 790mm width covers major portion of flexible packaging in the market today.

Digital press, Protect the earth

- Minimizing of inventories and waste helping to achieve sustainable goals
- No plate/drum making, putting and ink change
- Many small jobs imposed on one single web drives the optimized production with less waste

MJP30AXF Features

Small jobs + Many variety + Same shape On one web

Mass customization

DATA

③vegetable

②pepperoni

① Margherita

Easy to impose and set the different quantity with demand

Multiple jobs on one roll.
No waste between jobs.
