

## EB Web Offset Press

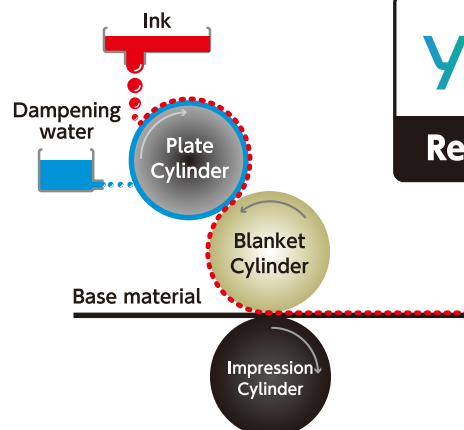

# MLP18-EB & MHL18-EB

for Flexible Packaging and Labels !!

Take full advantage of the conventional wisdom in offset printing coupled with EB curing ink innovations.

- » Competitive running cost thanks to low plate cost and ink curing energy.
- » Quick job change-over with fast plate swap.
- » Excellent ink performance, supporting a wide range of applications.
- » Pre-laminated surface printing & top coating boosts production efficiency.
- » Solvent-free ink means operator-friendly in press room and environmentally friendly.
- » Contribute minimal CO<sub>2</sub> emission due to low ink curing energy.
- » Easy-to-use inhouse prepress with non-process plates.

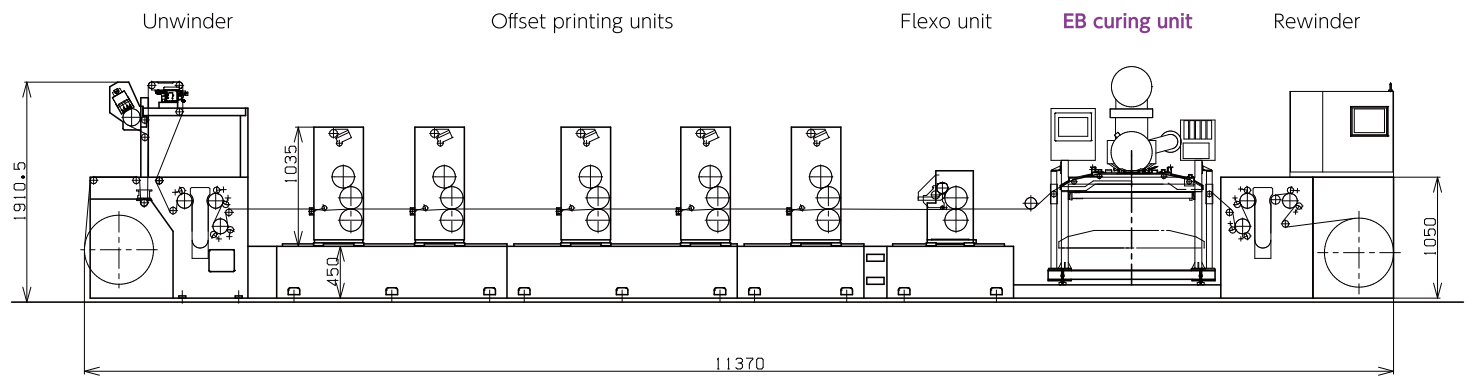

# Semi-rotary EB Web Offset Press MLP18-EB

Offset 5-color + Flexo coater + EB Curing

## Specifications

Film transport	Semi-rotary
Printing width	450mm
Repeat range	215mm ~ 406mm
Max printing speed	200rpm *81m/min with max repeat size
EB curing	IWASAKI EC110/45/40mA

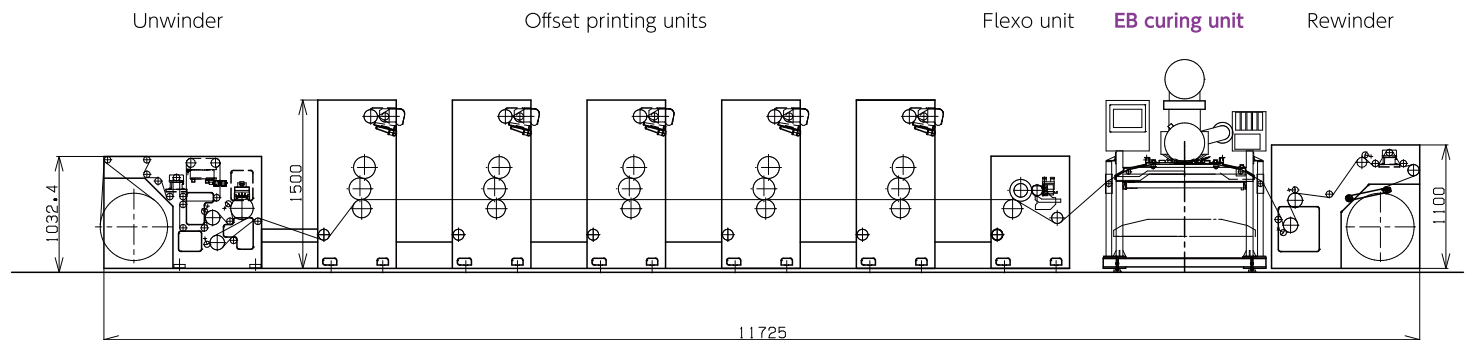

# Rotary EB Web Offset Press MHL18-EB

Offset 5-color + Flexo coater + EB Curing

## Specifications

Film transport	Rotary
Printing width	450mm
Repeat range	380mm~610mm *Variable sleeves are required
Max printing speed	100m/min
EB curing	IWASAKI EC110/45/40mA
